

Immediate notification

10/01/2022

The event is ongoing. Weekly follow-up reports will be submitted.

Sender	Country/territory	Report ID
Delegate of Italy	Italy	IN_153359
Event status	Self-declaration	
On-going	No	

General information

Country or zone - Zone	Disease - African swine fever virus (Inf. with)	Started on - 05/01/2022
Animal type - Terrestrial	Confirmed on - 06/01/2022	Causal agent - African swine fever virus
Disease category - OIE-listed	Reported on - 07/01/2022	Reason - New strain in a zone or a compartment

Epidemiology

Source of the event or origin of the infection - Unknown or inconclusive

Epidemiological comments Following the finding of a dead wild boar in northern Italy, the positivity for genotype 2 is reported, the same strain currently circulating in Europe, that characterizes the epidemic wave that began in 2007.

Control measures at event level

Domestic control measures

- Applied
- Surveillance within containment and or the protection zone
 - Surveillance outside containment and or the protection zone
 - Official destruction of animal products
 - Ante and post-mortem inspections
 - Disinfection
 - Stamping out
 - Screening
 - Official disposal of carcasses, by-products and waste
 - Movement control inside the country
 - Zoning
 - Traceability

Wild control measures

- Applied
- Screening
 - Official disposal of carcasses, by-products and waste
 - Official destruction of animal products
 - Movement control inside the country
 - Ante and post-mortem inspections
 - Surveillance outside containment and or the protection zone
 - Surveillance within containment and or the protection zone
 - Zoning

Diagnostic

Clinical signs - Yes	Method of diagnostic
	- Diagnostic test
	- Clinical

Test name	Category	Test type	Laboratory	Species sampled	Outbreaks	Tested from	Tested until	Result
Real-time polymerase chain reaction (real-time PCR)	Nucleic acid detection	Laboratory Test	National Reference Laboratory for classical and African swine fever National Laboratory	Wild boar	1	06/01/2022	07/01/2022	Positive

Quantitative data summary

Measuring unit - Animal

Species	Type	Susceptible	Cases	Deaths	Killed and disposed of	Slaughtered	Vaccinated	Outbreak morbidity	Outbreak mortality
Wild boar (Sus scrofa):Suidae-Artiodactyla	New	-	1	1	-	-	0	-	-
